### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- In claim 19, line 2, delete "reinforcing" and replace it with "strength".
- In claim 20, line 2, delete "reinforcing" and replace it with "strength".

Explanation: Since claims 15 and 16 use the term "strength rod" rather than "reinforcing rod", dependent claims 19 and 20 are amended to be consistent with their parent claims. The change is merely editorial in nature and does not affect the understood scope of the claims.

### *Allowable Subject Matter*

Claims 15-36 are allowed. A statement of reasons for allowance follows. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The primary reason for allowing claim 15 is that the closest prior art of record fails to disclose or suggest the recited specific condition on twisting stiffness of the cable. There are examples of similar overall cable structure in the prior art, such as US 2003/0044139 (cited in

Art Unit: 2874

IDS) or US 4844575 (cited on attached PTO-892 form), but these references alone would not have led a person skilled in the art to the recited condition. Claims 16-36 depend from claim 15.
